Comfortable, Lightweight
Concealable Body Armor

August 17, 1979

TO WHOM IT MAY CONCERN:

For the last nine years I have been totally devoted in the world of firearms and ammunition. This has resulted in the development of SECOND CHANCE concealable body armor and the saving of 160 American Policemen from death or critical injuries.

In my opinion Evan Marshall is one of the top 10 gun writers in the country and one of the world's most knowledgeable people in the field of bullet impact and terminal ballistics.

Sincerely,

R. C. Davis

Richard C. Davis
